Subject: **LETTER OF APPRECIATION**

Dear Cliff:

I would like to thank you and your staff for a job well done on the coating systems of the 75.300 E-field Vacuum Kiln we erected in Washington State this summer. Despite some challenges the end result was an excellent product.

In particular I felt reassured that you kept me apprised of problems as they were encountered and were able to resolve them quickly and successfully. I attribute this to the knowledge and experience of your crew, with whom I was very impressed. I also appreciated your willingness to work out details on your own. This allowed me to concentrate on the other aspects of the project with the confidence that the coatings contract was in good hands.

It was a pleasure to work with you and Darren and I look forward to using you on our next project.

Sincerely

HeatWave Technologies Inc.,

Scott R. Spencer, P. Eng.
Project Manager
